

Homework: Banners

Navigate to TPT. Click on My Account

Click on "Store Profile". Scroll to the bottom and click "edit".

Use Google Shortlink to create your url links: one for your gif and one for the location you want to send people to who click on the banner..

Code for Quote Box Banner

```
<a href="https://goo.gl/your_link"></a>
```

Now that you have your quote banner set, it's time to work on your main banner and side banner. Use what you know about making images and uploading them to finish your store set up.

A few tips:

Side banner size: 568px wide x 734px tall

Store banner size: 706px wide x 90px tall

1. Screenshot of the TpT dashboard navigation menu. The 'Sell' section is highlighted, and 'Dashboard' is selected.

2. Screenshot of the 'Marketing Your TpT Store' page. The 'Marketing' tab is selected, and the 'Customize My Store' option is highlighted.

3. Screenshot of the 'CUSTOMIZE MY STORE' page. It shows instructions for adding a 'Store Page Leaderboard' banner. A preview of a banner for 'TASK CARDS' and 'CENTERS' is shown. The 'Upload your image' step is highlighted, showing a 'Choose File' button and a text input field for the product page link.

4. Screenshot of the 'Store Page Column Banner' section. A preview of a banner for 'Task Cards', 'Google Classroom', 'Interventions', and 'Kid Tested' is shown.

When you finish your homework, post your store link in the "Sell on TPT" Facebook group so we can check it out and give you a thumbs up!!

And a few reminders:

- 1. Save your image as a png to keep a transparent background.
- 2. Quote Banner Size: 400 pixels wide x 150 pixels tall.
